

Coming soon to a Connecticut community near you, the *Transforming Teen Services* project. In trainings, facilitated by Connecticut State T3 trainers, you'll learn about teen growth and development, connected learning (CL), computational thinking (CT) and more. Take advantage of this opportunity to build and develop services for and with teens that will help guarantee that the adolescents you support have what they need for future success. The trainings will be held in three different locations across the state. Each training topic will be exactly the same so you only need to register for one date under each topic.

The training schedule and times will be as such:

	Teen Development	Connected Learning	Computational Thinking	Connected Learning & Computational Thinking
Weston 9:30-12:30	February 26	March 4	April 8	May 6
Bristol 9:00-12:00	February 21	March 10	April 14	May 12
Killingly 10:00-1:00	February 24	March 24	April 24	May 21

Register for one of these trainings at <https://cslib.libcal.com/> or click on links above. For any questions or concerns please contact:
