CT TEACHERS: YOUR students _can_ take on the

LT. GOVERNOR'S
Computing Challenge

and YOU _can_ help them!

Coding for Good

NO EXPERIENCE NEEDED!

Computing is not the future. **It's the here and now**, it's fun, and the LGCC is offering students and teachers **free** virtual computing lessons that can help students with LGCC submissions!

CT student in grades 3-12 can submit individual or group computing ideas in one of three LGCC categories: concept, prototype, and development.

The challenge is ON! JOIN IN, starting with these unique, fun learning opportunities

FOR STUDENTS

Learn to write basic code to help a robot relax or exercise a robot

- click link(s) above to register
