Scott is a dynamic speaker, and his 40-minute elementary school presentation is geared toward second grade and above in a multi-grade assembly in a gym or cafeteria. Scott loves the energy of big groups and has no trouble keeping the students engaged. The theme of the assembly is **Working Together to Make a Difference**. Because Graysen Foxx has faces perilous obstacles in his quest to beat his arch-nemesis, Raven, to the treasure, he needs a lot of help from some unlikely places, and learns the power of teamwork. Scott also teaches the students how to come up with an amazing story idea in less than five minutes through a fun activity where children become hero, goal, obstacles, and consequences to create a group story with hilarious results! Scott came up with this part of his presentations after hearing teachers talk about students who had no idea how to write a story. This gives even the most reluctant students the tools to sit down and create something they are excited about.

**J Scott Savage** has published 14 middle-grade novels. He is the author of The Lost Wonderland Diaries, Mysteries of Cove, Case File 13, and FarWorld series. His books have received starred reviews from Publishers Weekly and Kirkus, been named a Junior Library Guild selection, an Amazon book of the month, and a Barnes and Noble select book, as well as receiving numerous other awards and recognition. Scott is a dynamic and engaging speaker who has presented to over 4000 schools. He also presents at libraries, conferences, and classes across the country. He is a regular teacher at Teen Author Boot Camp, the Storymakers Conference, Jackson Hole Young Authors, and Writing and Illustrating for Young Readers. He also developed a Writer in Residence program for grades 2-8 with Common Core-aligned writing projects designed to make writing safe and fun. You can generally find Scott in a bookstore or library, playing Minecraft, or hanging out with his amazing wife, Jennifer, and their children and grandchildren. He is a voracious reader, and says that librarians are his superheroes.
