DON MIDDLEBROOK

APRIL 3rd - 6:30 PM

WHISKEY JOE'S

<http://www.donmiddlebrook.net/who-is-don/>

Starting in 1991, Don Middlebrook and Living Soul began a musical quest up and down the west coast of Michigan with little idea of where it might lead. Always directed by a new song, a new adventure, and an occasional cold beer, what began as fun and frolic has turned into thirteen years of travel and musical bliss. Looking back over those last thirteen years, eight CDs have been recorded and over 150 dates played each year. Airplay has become commonplace, like that found at WCSX FM in Detroit, and internet web play has had international activity. Don and the band have performed on national radio with Mitch Albom and G. Gordon Liddy, and the last three years, they have toured and recorded with Greg "Fingers" Taylor, Jimmy Buffett's harmonica player for twenty-six years. In 2004, Don had two compositions in an Showtime original movie.

While performing at Sloppy Joe's in Key West, Florida, Saugatuck's local musician, Don Middlebrook and a friend thought that they would take a moped ride around the island. What started out as an innocent joy ride soon became a hunt to find Jimmy Buffett's house. Based on local information they had gathered, they thought they were close, but were not convinced. That's when Don peeked into the mailbox and spotted Jimmy Buffett's TV Guide. Contradictory stories exist as to what happened next. Don wrote a song to apologize, claiming he found the TV Guide on the ground. Witnesses say that he stole it out of the mailbox. Years later Don recorded and toured with the most famous Coral Reefer of all, Greg "Fingers" Taylor. Greg claimed that Jimmy was aware of the theft and wanted his TV Guide back. Don's song of apology claimed that he did not have it. Friends say it is in his house. No charges against Don were ever filed and the existence and/or the whereabouts of the TV Guide that inspired this song have never been validated. Jimmy Buffett has since moved from that home in Key West and now has a P.O. Box. As the song goes, you can always steal from a pirate.

Why it's so kool to attend a TBPH Phlocking....

Music: every meeting, live music from the best of the Trop Rock scene

DRINK SPECIALS: Martha and the bar tenders offer up the coldest libations

FOOD BUFFET: Whiskey Joe's supplies food for the Parrot Heads. (gotta have your lanyard, and it's FREE)

RAFFLE: Denise & Jen scour the storage areas, flea markets and AMAZON for PHantastic gifts.

TRIVIA: Ok, sometimes we offer up questions with swag prizes.

.....and it's all on the **BEACH** with the **PHUNNEST PHOLKS** you can meet!!

CORY YOUNG

APRIL 17th - 6:30 PM, WHISKEY JOE'S

<https://coryyoungmusic.com>

If you missed Cory at MOTB, then here's your second chance! Cory was awarded Trop Rockin Magazines 2018 Breakthrough Artist of the year, Album of the Year and Best Song (All She Does is Beach) at the Trop Rock Music Awards.

Originally from Michigan, he grew up in Hawaii, moved to Nashville when still a teenager. He left Nashville in 2011, closed his guitar case, bought a sailboat and sailed off to the Florida Keys. Living that life, the characters around the islands, the water, how couldn't you be inspired?!

Cory relocated to Las Vegas after hurricane Irma. His new album, "Tan Lines", is full of songs written about his life, the road and the crazy people he meets along the way.

Save the Manatees

<https://www.savethemanatee.org>

WHO WE ARE

Save the Manatee Club is an award-winning national nonprofit 501(c)(3) and membership-based organization established in 1981 by renowned singer/songwriter, Jimmy Buffett, and former U.S. Senator, Bob Graham, when he was governor of Florida.

WHY WE NEED YOUR SUPPORT

Human activities are harming manatees, and only our compassion and action can protect them.

Manatees are Florida's official state marine mammal. They are listed as endangered at the international level by the IUCN World Conservation Union. They are listed as threatened at the federal level by the U.S. Fish & Wildlife Service and at the state level by the Florida Fish & Wildlife Conservation Commission (FWC). Their listing status is largely due to human activity. Since record-keeping began in 1974, more than 41% of manatee deaths where cause of death was identified were human-related – and almost 34% were due to watercraft collisions (the largest known cause of manatee deaths). With increased awareness, education, regulations, and enforcement, manatee deaths caused by humans could be substantially reduced, and the eventual recovery of the species could be realized.

HOW YOU CAN HELP

You can make a difference for manatees! Learn how to [report an injured manatee](#). [Adopt-A-Manatee®](#) for yourself, or renew your membership, and give an adoption to someone you love as a birthday or holiday gift.

[Support manatee protection](#) by making a tax-deductible contribution, donating in memory of someone or in honor of a special occasion, or considering a legacy gift to Save the Manatee Club. Purchase a T-shirt, manatee plush toy, book, or other item from [The Manatee Store](#). Plus, discover even more ways you can help manatees by [contacting decision makers](#), requesting our [free resources and materials](#), volunteering, and more! Click the images or links on this page for further information.

Our Mission:

Our mission is to protect manatees and their aquatic habitat for future generations.

Our Objective:

Our objective is the recovery and protection of manatees and their aquatic ecosystems throughout the world.

Our Goals:

In order to recover the manatee population – or delist the species – our goals are:

- To protect ample healthy habitat to support a stable or growing manatee population
- To reduce manatee harassment, injuries and deaths from human activity
- To ensure that sufficient regulations have been adopted to accomplish these goals

Our Work:

In order to accomplish our objective and goals we concentrate our efforts on reducing the negative impacts to manatees and their aquatic habitat caused by human activity through:

- Increasing public awareness and education
- Sponsoring research, rescue, rehabilitation, and release efforts
- Advocating for strong protection measures, such as boat speed zones and sanctuaries
- Taking legal action when appropriate
- We also assist scientists and educators in the Wider Caribbean, South America, and West Africa with their conservation efforts.

Our Core Values:

- Supporting the most effective conservation actions possible.
- Making science-based decisions and supporting science-driven policies
- Demanding accountability from policy-makers
- Working cooperatively
